SCC Assistant Camera Bags

The Samas SCC Assistant Camera Bags is a rigid-frame case designed for the safe and comfortable transport of accessories and work tools. Spacious yet compact, it offers a well-structured interior that provides excellent protection for your equipment. Multiple internal and external pockets ensure efficient organization, while two adjustable internal dividers allow you to customize the layout according to your needs. Transparent flat pockets make smaller items easy to identify and access, while three detachable transparent pouches provide additional flexibility and organization.

Two detachable front pockets offer additional storage, ideal for items such as air canisters, while a spacious rear pocket adds further practicality and flexibility on set.

Crafted from premium Cordura 1000D, with an internal lining made from Italian-sourced nylon, it ensures durability and reliable protection in demanding environments. The handle webbing is produced by an Italian manufacturer to guarantee long-lasting performance, while the leather grips add a refined and comfortable touch. Entirely made in the Eternal City, Rome, all Samas products are certified and comply with current Italian and European regulations.

SCC-O Bucket Bag

The Samas SCC-O Bucket Bag is a versatile, multi-function solution designed to meet a wide range of on-set needs. Compact and easy to carry, it features multiple pockets to keep your equipment organized and always within reach. Crafted from premium Cordura 1000D, with an internal lining made from Italian-sourced nylon, it ensures durability and reliable protection in demanding environments. The handle webbing is produced by an Italian manufacturer to guarantee long-lasting performance, while the leather grips add a refined and comfortable touch.

Its quick-closing system keeps your accessories safe from rain and harsh weather conditions. The rigid base and structured shape provide stability and comfort during use. When needed, the integrated rain cover allows you to fully secure the bag, keeping your gear safe in any environment.

Entirely made in the Eternal City, Rome, all Samas products are certified and comply with current Italian and European regulations.

CP Camera Pad

The Samas Camera Pad is designed to safely support your camera after shooting. Acting as a practical resting stand, it wraps around the camera to protect it from scratches and dirt. Inside, carefully placed polyester cushioning ensures the right balance of softness and stability, keeping your equipment secure and in place. It also features two side pockets for additional functionality and convenience on set.

Crafted from premium Cordura 1000D, with an internal lining made from Italian-sourced nylon, it ensures durability and reliable protection over time. The handle webbing is produced by an Italian manufacturer to guarantee long-lasting performance, while the leather grips add a refined and comfortable touch. Its elegant and functional design makes transport easy and convenient in any working environment.

Available in two sizes to suit different camera setups and professional needs.

CS Cine Shade

Go to the website >>

The Samas Dark Cube is a floppy-style cover designed to darken on-set monitors and create a controlled viewing environment in any lighting condition. It is made from a lightweight, weather-resistant outer material in a light color, combined with a black internal fabric that maximizes light control and visibility.

Featuring a full zip closure on all sides, it allows quick access and flexible use during shooting. Side buckles enable the panels to be rolled up when needed, offering additional versatility on set. The internal metal structure is removable, making transport easier and more efficient. Available in two sizes, it adapts to different monitor setups and professional workflows.

TCR Tool Chest Radio

The Samas Tool Chest Radio is designed to securely hold your work accessories during shooting. It allows you to carry essential tools such as air canisters and other on-set equipment in a practical and organized way. It features a removable air canister holder for added flexibility, and an adjustable radio holder designed to fit all radio sizes. Thanks to the elastic crossover system on the back, it easily adapts to different body shapes, ensuring comfort and stability during use.

Crafted from premium Cordura 1000D, with an internal lining made from Italian-sourced nylon, it ensures durability and reliable protection in demanding environments. The handle webbing is produced by an Italian manufacturer to guarantee long-lasting performance, ensuring strength and reliability over time.
